Annual Seminar on Compliance

The first seminar was held in 2012 and since then this yearly meeting brings together compliance and conference specialist representatives of healthcare companies with medical societies, professional conference organisers, venue representatives and others which makes it very unique.

Success of this event has been founded on open and productive discussion between the different interest groups. Regular key note speakers are representatives from EFPIA, IFPMA and MedTech Europe. If you wish to keep informed on the next event, please [sign up for our e-news](#).

Save the date: April 29 and 30 2020 in Munich.

Some statements from participants:

Well organized, always a great opportunity to liaise with different colleagues out of meeting industry and exchange views.

Top level of people and very professional organised seminar. Its my first time and I have been really impressed.

Thank you for the valuable and professional contribution to my daily work, much appreciated!

IPCAA organises this two day conference for the purpose of enhancing the dialogue between all the major players in medical meetings
